

1183

Crystal Lake to Mt. Islip

Date: 6/11/14

Leader: Alice Weiss

9 mile round trip----2200 feet gain

From the 210 freeway take the Azusa off-ramp thru Azusa and up HWY 39 to the top which is 25 miles.

Turn right at the sign near the end of highway 39 and drive past the area buildings and Cafe to the outer most parking area. (Aprox.1-1/2 miles in)

Maps will be passed out on the June 11 hike so that you will have an idea of several trails available. I will high light a couple of them. However as we seem to be an adventures group some of us may want to branch out and try something new. If so, please be sure to follow someone who is sure of the area. We will be starting at 5656 feet and going up to 8250 feet, at this elevation it's a strenuous hike. The views are outstanding and the road trip itself is worth it.
