

Trippet Ranch East to the Hub, Cathedral and Temescal Peaks

Date: 9/10/2014

Leader: Peter Wall

Distance: 8 mi. RT; Elevation Gain: 1200 feet

Directions to Trailhead: From PCH at Topanga Beach, turn north on Topanga Canyon Blvd and drive 4.7 miles to Entrada Road. Turn right and drive 1.2 miles to Trippet Ranch. There is a fee for parking. Restrooms are in the parking lot.

The Hike: The hike starts on the fire road, turns left at Eagle Junction, climbs Eagle Peak, continues to the hub, and beyond, climbing Cathedral and Temescal Peaks, back tracks to the hub, then returns to the trailhead via Eagle Springs and the Musch Trail.

Take the trail up the hill from the parking lot. This intersects with a fire road. Turn left at this intersection and walk up a gentle grade, initially in the shade of Coast Live Oak trees - later along an open ridge. Continue on the road for about 1 mile to a fork, Eagle Junction; take the left fork of the fire road and continue uphill, noting the view of Eagle Rock ahead. Make a short side trip on the back side to climb up Eagle Rock.

Continue east on the road (Cheney Fire Road), until reaching an intersection with three roads, called "The Hub". Besides the Cheney Fire Road, there is Fire Road 30 entering on the left, and continuing southward. Turning sharply to the right, another road that passes Eagle Springs going west which we will take later.

Go South on Fire Road 30 almost immediately past Cathedral Peak, then after about ½ mile to the intersection with Rogers Road on the left. Continue a short distance south of this intersection, leave the road and climb Temescal Peak, the highest point in the park, 2126 feet.

Return to the Hub the same way you came. Turn left and go to Eagle Spring which is supposed to be a year round spring. Then continue west on the road until coming to Eagle Junction. Cross the road to the west side where you will find the Musch Ranch Trail. Continue south on the trail heading down through the chaparral, oaks and a little stream that flows after each rain. Cross a little meadow, pass the pond, and you have arrived at the parking lot.

Refreshments will be provided under the shade of beautiful Oaks. Hopefully the coastal range will not be too hot, but be prepared.
